North Carolina 1116 Bridge  
(Bridge No. 58)

HAER No. NC-34

Location: Spanning Jacob Fork River  
Longview vicinity, Catawba County, North Carolina

UTM: 17.462650.3942440  
Quad: Longview

Date of Construction: pre-1920

Builder/Designer: Owego Bridge Company of Greensboro, North Carolina

Present Owner: North Carolina Department of Transportation  
Raleigh, North Carolina

Present Use: Vehicular bridge

Significance: This Pratt Half-Hip bridge is 56 feet long. The joints are all pin-connected and contain another unusual feature, bolted caps on the pins. Instead of the more common substructure of masonry piers, the bridge is supported by cylindrical steel columns.

Project Information: This documentation was undertaken in 1979 in accordance with the Memorandum of Agreement by the North Carolina Department of Transportation as a mitigative measure prior to demolition.
